**DIRECTIONS:** *In downtown Sandpoint, turn E off Hwy 95 (1st St) onto Bridge St; cross bridge and go under railroad; enter city park.*

One of the best locations in north Idaho that has produced numerous rarities. Scan the beach and breakwater for shorebirds, gulls, and terns. Ring-billed, California, and Herring Gulls are all regular; Franklin's, Bonaparte's, and Sabine's Gulls as well as Common Terns are possible in fall. Look for diving ducks, loons, and grebes. Check the trees in the park for migrant songbirds. American Pipits, Horned Larks, Savannah Sparrows, and a few Snow Buntings show up during fall migration.
